

# Project Sprint #8

Aijing Gao, Shiyi Qin, Baiyan Ren, Yi Wang, Haojie Yu

[agao48@gatech.edu](mailto:agao48@gatech.edu)

## TASKS ACCOMPLISHED

This week, we have successfully deployed the current web application online using Heroku. The database is already deployed to ClearDB based Heroku add-on. The web application has been functioning properly on multiple browsers and platforms, including Chrome and Safari (on the phone).

Current connection patient experience App can be found below:

<https://arcane-beyond-54226.herokuapp.com/login>

Test patient account:

Username:

WeimEr1987

Password: 1234

## CHALLENGES

Fix edit profile function and other bugs in the current web app.

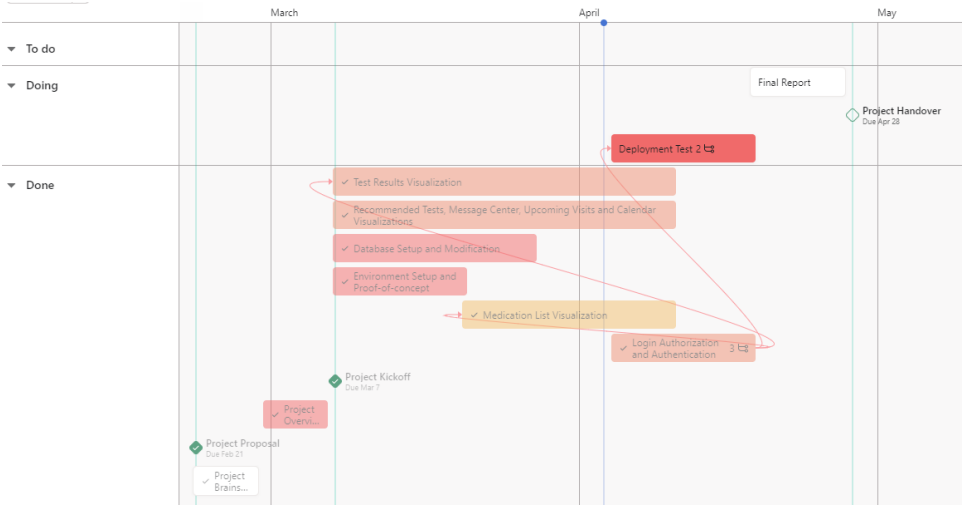

Time constraint to complete all of the documentation.

Clean up the UI portion of the web application due to bandwidth of team members.

## PLANS AHEAD

- Polish the web application
  - o remove "page" tab (Yi)
  - o remove "settings" tab (Shiyi)
  - o hardcode emails and notifications (Shiyi)
  - o Add full name on the top left corner of each page (Aijing)
  - o Fix recommended exams bug (Baiyan)
  - o Modify the title of list on the left side of calendar (Baiyan)
  - o Fix Edit Profile page bug and prepare for alternatives (Haojie)
  - o Minor updates on Appointment table in remote database
- Write documentation
